Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the examiner has considered applicants' amendment filed February 21, 2006 and the arguments therein. The examiner has found applicants' arguments persuasive, specifically, that the closest prior art relied upon for the rejections of record fails to teach or fairly suggest a prominent feature of the present invention, i.e., separating the aqueous acetic acid distillate generated in the evaporator into an acetic acid rich stream and acetic acid depleted stream. Such a step would not have been apparent to a person of ordinary skill in the art, relying on the prior art of record; as such, the instant claims are now allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
